TERROR REIGNS AGAIN

IN THE CITIES OF RUSSIA

The Czar and Grand Dukes are Prisoners of Fear in their Own Palaces.

St. Petersburg Feb. 20th:—The Czar has restored to favor in his grief at the assassination of the Duke Sergius, Grand Duke Paul, who some years ago was degraded because in opposition to the Emperor he contracted a morganatic marriage with Olga Pistolkoos. In accordance with the new decree Paul is reinstated with his title and full military and social standing and will attend the funeral of Sergius his brother, whose body lies in the Chodoff monastery where a guard keeps vigilant watch while priests intone masses for the repose of the soul.

That unrest is still prevalent is evidenced by the act that the district official Igdyr was assassinated yesterday for political reasons and that at Vagar Shapad a mayor was shot and killed and an unsuccessful attempt was made on the prefect of police. Terrorism still prevails in this city and Grand Dukes have not stirred out of their palaces since the Sergius tragedy. Contrary to the custom the Czar and Royal family will not follow Sergius' remains to the grave on foot. In fact so great is the fear of violence that the newly honored Paul may be the only representative of the royal house of Romanoff at the burial.

The strike situation has again grown menacing, especially on the railroads. Those entering Moscow are tied up and other industries are suffering in the same way. Sergius' supposed assassin remains obstinately silent and the police are unable to identify him as the man who throw the bomb.

HOW IT STANDS

FROM CALGARY'S POINT OF VIEW

One of the Calgary delegates to Ottawa sums up the present condition of affairs

W. M. Davidson of the Albertan, one of Calgary's delegates to Ottawa returned home on Friday and summed up in a lengthy article in Saturday's Albertan the standing of the autonomy negotiations and the capital question. The following paragraphs are taken from the article.

"A portion of the work of the Calgary deputation which left for Ottawa two weeks ago this morning has been completed, and the delegates are now spread abroad in various spots across the continent on their homeward journey. Dr. Stewart and perhaps C. A. Stewart will remain at the capital until the bill has been presented.

"The provincial autonomy bill will be before the House on Tuesday next. Then, and not till then, will it be known definitely on what conditions the new province will enter Confederation. Then will be given out the first authoritative statement respecting the details which do not interest the Eastern legislators to any great extent, but which are of more than ordinary interest to the people of Alberta or a portion of Alberta.

"The new western province will include all Alberta, the present Territorial division of Medicine Hat, and will have no

SHOULD GET BUSY

TO MAKE EDMONTON THE CAPITAL.

United and Vigorous Action of North-
ern Alberta Towns Should be
Taken at Once.

Wetaskiwin Post:—A battle royal is at present progressing between the cities of Edmonton and Calgary as to the respective merits of each place for the position of the capital of the new Province, which will in all probability be created in the near future. Calgary lays claim to this privilege and right to be named the capital on many grounds, but the principal one is that the volume of trade and postal revenue and returns show a great preponderance of surplus over Edmonton's similar figures and consequently in favor of Calgary. This may be as it may; but we notice that the Calgary press in exploiting this matter says little or nothing about the Calgary district (we are not speaking of the city proper) as a centre of population, as opposed to Edmonton and its surrounding district. In addition to this we would point out that whilst the choice of a capital may rest in the near present or near future the usefulness or position of that capital will depend in a large measure upon the future of the city and its future importance from a geographical point of view. Looking then at the matter from this standpoint, and considering that in the course of a year or two Edmonton will be the proud possessor of three great railroads, we cannot help but think that Calgary will then assume a secondary position, so far as her merits for the capital are concerned. Even Calgarians themselves will scarcely fail to admit that with three great railways running into Edmonton that that city will be of vast importance as a centralizing and distributing power in this great west country, and in viewing these matters of the present it is the statesman who forms his opinion by the light of the future. Another item which is overlooked by Calgary in the disposition of her views in this tussle, is, that it is an almost undeniable fact (we make this statement advisedly and we believe it to be true) that the centre of population in the present provincial district of Alberta lies nearer to the north end of the C. and E. line than at the Calgary end. If then, this is so, in what relation will Calgary stand to the vital question, it is left finally to the new Provincial House to decide the matter. It is extremely probable that the Federal Government will confer the capital upon Edmonton in a temporary sense and we think it rests with the people of the northern part of the proposed new Province to see that it stays there. Edmonton's merits as a future centre of transportation are indisputable, and we ought to "get busy" in the northern country and watch the progress of affairs from the standpoint of Edmonton as a capital. We presume every town on the line will be up barking for the capital to be placed in that particular town shortly, but we hope we are not so narrow in our vision as not to be able to see that it lies between Edmonton and Calgary. The latter city has already appointed and shipped off a strong committee to Ottawa to watch progress of events in the interests of Calgary. Signs of life there say we. What is Edmonton doing?

De Miracle

It is better than electricity, because it does not scar or produce a new growth. Better than X-ray, because it does not burn, scar or paralyze the tissues under the skin. Better than depilatories, because it is not poisonous; therefore, it will not cause blood poisoning, or produce eczema, which is so common with depilatories, and does not break off the hair, thereby increasing its growth.

Electrolysis, X-ray or depilatories are offered you on the bare word of the operators and manufacturers. DE MIRACLE is not. It is the only method which is indorsed by physicians, surgeons, dermatologists, medical journals and prominent magazines.

DE MIRACLE will be mailed to any address, sealed in plain wrapper for \$1. Your money back without question if it fails to do all that is claimed for it.

Our booklet—the most complete treatise on Superfluous Hair ever published—containing the testimonials of numerous physicians and surgeons and those of hundreds of others—will be sent free, in plain, sealed envelope, upon request. ARE THE SOLE AGENTS
IN EDMONTON FOR THE

MONARCH
RANGE...

There is no question as to what this Range can do or its durability, as thousands and thousands of them are in use on this continent, and so far as we have been able to learn no fault has yet been found with them.

The main body of this Range is built up of sheet steel, and all the other parts that require to be cast are malleable iron. The top is ground to a bright steel finish, and is so heavy that, no matter how long or how hot you heat it, you cannot make it warp or get out of shape.

You will notice that the oven has a drop door, and the above cut illustrates the strength of this door, as any man can stand on it when it is open without straining it in the least. This will give some idea of the strength of the Stove, as all its parts are as strong as this cut of the oven door open with the salesman standing on it would convey to you.

It is a wonderful baker, a very quick heater, and its water front is so constructed that it will heat water nearly twice as quick and on a much less quantity of fuel than any other Range now on the market.

The purchaser of a MONARCH RANGE insures a satisfaction that cannot be measured in dollars and cents, for at the end of ten years' use it will operate as easily and be just as good as when first started.

Remember the MONARCH when you want to purchase a Range.

THE NEW LAND'S MESSAGE.

By ANNIE E. MORRIS

The new land sent a message
To the Old Land far away;
Simple and strong was her story,
And told in a simple way.
"You have children to spare," she pleaded,
And when they are forced to roam
These are my words—are they heeded?
Make Canada their home.

"Broad are my lands and fertile,
Deep is the virgin soil;
Golden the grain and golden the gain
I offer to those who toil;
To those who toil and are willing
To plough the prairie loam
I offer a land worth tilling
And a fair Canadian home.

I offer a land where labour
Is ever requited well;
Where happily friend and neighbour,
May ever in concord dwell
No fairer land nor freer
Beneath Heaven's starry dome;
And hearts responsive echo this
Of a bright Canadian home.

"Come to the land I offer,
Ye men with willing hands
Fill for yourselves a coffee
With the wealth of my harvest
lands
Fear not the long cold winter
Nor the snow that is whiter than
foam,
There is joy and mirth round the
glowing hearth
Of a bright Canadian home."

The Old Land heard the message,
She answered swift and clear:
"I know the worth of Canadian earth
And I love my children dear.
Oh how I grieve to see them leave
But I bid them when they roam
To prove the worth of British birth,
In Canada their home."

Don't let the children get the Calomel and "Liver pill" habit. Give them the natural laxative that is gentle and effective, pleasant to take, never gripes, and CURES constipation—

DAILY EDMONTON BULLETIN, MONDAY, FEBRUARY 20, 1935

MURDER CASE

IS BEING TRIED TODAY.

Investigation of the Charge Against King of a Murder at Lesser Slave Lake.

The preliminary hearing of the murder case of Crown v. King opened this morning at the N. W. M. P. barracks before Inspector Worsley. The trial promises to be one of the longest ever held here there being nearly eighty witnesses to be heard, and a great number of them being Indians the evidence will come in slowly.

Sergeant Anderson brought in about 30 Indians yesterday from Lesser Slave Lake who are on as witnesses.

King as he sat in the prisoner's chair this morning looked to be a man about 35 years of age, small dark complexioned, but with an unnatural pallor probably caused by his long confinement. He is deeply attractive to all that speak and maintains at all times a very quiet demeanor.

C. De W. Macdonald, K. C., appears for the crown and O. M. Hegar for the defence.

The morning's evidence consisted largely in that of Henry Hayward of North Mundham, England, a brother of the deceased who arrived from England last week. He identified a good many things supposed to have belonged to his brother and told considerable concerning the past life of the deceased.

The last he heard from his brother was in September last when he received a letter from him dated from the Edmonton hotel at this place and stating that he and King were about to start for the North on a prospecting trip.

He was shown a stick pin, souvenir case, pair of gold scales and vest, etc., which he said he had seen in his brother's possession many times. Also a trunk on which are the dead man's initials which witness declares to have seen deceased put there himself.

He was then shown a gun which he swears to have been his brother's and also a bill book containing several letters in the hand writing of his sister.

He told about how his brother was formerly a seaman and showed his marine certificates and discharge papers.

The next witness called and the one on the stand when an adjournment was made was an Indian from the Lesser Slave Lake reserve of the name of Edward Mamegwanapa (spelled "follow"). His evidence which King and Hayward passed on their way to the Lake. He (the witness) was employed in mudding up his house when the party went by with their outfit consisting of four pack horses and a dog.

According to his story the defendant, whom he identifies as one of the two men in the party, and his companion went about half a mile from his house and stopped there and camped. A few days afterwards in passing the camp of these men he noticed the same two men. Several articles were in evidence which he identified and also pointed out the location of the camp in respect to his place and the Lake, which was about 1 1/2 miles distant, on a sketch which was in evidence. He said the deceased was mending the broken stock of a gun, which when shown to him he identified. The defendant was busy cooking. This was the last time he saw the two together. Several days afterwards while going to the settlement he came up with the defendant who was trying to take the four pack horses over to the settlement which he helped him do.

Here the sitting adjourned until this afternoon when it will be resumed in the city hall, there not being the desired room in the R.N.W.M.P. barracks.

SUCCESSFUL CARNIVAL

HELD AT FORT SASKATCHEWAN

Strathcona Won from the Fort at
Hockey—General Items of Interest.

Bulletin Special.

Fort Saskatchewan, Feb. 20th.—The carnival held on Shamrock rink last Friday was a grand success and many ancient and costly costumes were worn. Prizes were given for the best lady skater in costume also best ladies and gentlemen's costume. Mrs. Sgt. Major Emery dressed as "Queen of the North" was the unanimous choice of the judges as the most graceful lady skater. Miss Lulu Carwood dressed as "Canada" received first prize for ladies' costume and Mr. H. E. Staples in the guise of "Rev. Sambo" took the first gentlemen's prize.

Again on Saturday afternoon the Shamrock rink was the scene of much interest when a team composed of the boards at the Dominion Hotel, Strathcona played hockey with the Fort team. Although the score stood 5 to 1 in favor of the visiting team the game was very even and interesting throughout. As three of the visitors forward line and one of the defence were from Strathcona the defence were from Strathcona's senior team. The Fort boys feel quite gratified at having kept their score down as well as they did. The game through was a splendid exhibition of swift clean hockey. In the evening the visitors were tendered a dance in Langworthy Hall where a few very pleasant hours were spent.

W. J. Foster has the material on the ground to erect a solid brick block on Government street as soon spring opens.

Yesterday was such a delightful day that many of the Edmonton people enjoyed a drive to the Fort. Rev. A. Forbes preached on the Sturgeon Circuit yesterday.

Fires in Many Places.

northern boundary other than the North Pole.

"So much for the division of the Territories. To protest against these boundaries was part of the mission of the deputation. It seems like a hopeless protest. The Assiniboia members of Parliament, the Saskatchewan members of Parliament, some of the Alberta members of Parliament, most of the Northwest senators, favor the division mentioned, and in addition to that there is a very strong suspicion that the representatives of the Territories now in Ottawa favor such a division. With an opposition such as that it is difficult to see what can be done other than that of submitting. The name of it will be Alberta.

"The Dominion is willing to recognize that the lands belong to the Territories. But they have a word to say about the lands. They have an offer to make which they seem to insist upon and which will be accepted without any very great misgiving on the part of the Territories if everything is as favorable as it seems. Once recognizing the claim set up by the Territories, the whole affair resolves itself into a question of terms. The Dominion government maintains that while the Dominion interests itself in immigration, spends money upon settlement, then the Dominion should have some control of the lands which they are undertaking to settle. While the Dominion government continues its very successful immigration policy, settling this country with the best available immigrants, their request does not seem extreme. On the other hand the Dominion recognizes that from our lands our revenue should come and the Dominion has no desire to starve the new provinces. The Dominion is prepared to deal generously with the new provinces.

Then there are the coal lands, the mining lands and the grazing lands. It is probable that these may be handed over to the provinces for administration.

"It is almost certain that the Dominion will guarantee to the minority in the Northwest Territories their separate schools. It is doubtful if the Dominion could do otherwise. The entrance of the Territories into full provincial powers with their well established separate schools is different to that of Manitoba which upon entering confederation had no separate school system.

"Then let us speak of the capital. Calgary has asked for the temporary capital for some point in the south country. Edmonton has asked for the capital for Edmonton. Both may be disappointed. Edmonton will certainly be disappointed. That is the difference. Calgary asks for the temporary capital for itself or some other point in the south. Edmonton asks for the permanent capital for itself.

"The argument was raised that Calgary made a mistake in tactics in not fighting for itself and for itself alone. Frank Oliver attempted to turn a point by arguing that the strongest and most conclusive proof of Edmonton's fitness for the capital was the attitude of Calgary, a hostile city, that any place but Edmonton should be selected. When we

mentioned Banff we were met with the reply that we were not very sincere in our desire for Banff but that we favored Banff, believing that Calgary would eventually profit by such a selection.

"But Edmonton may not be selected as the temporary capital. There are many members of parliament who favor Calgary, and who are somewhat enthusiastic in favor of Calgary as capital. These members belong to both sides of the house. The trouble in the position for us however is that on the one hand there is one Liberal member of parliament, a sturdy member of parliament, too, who will stand up and demand that Edmonton be made the capital, who is prepared to oppose the administration if need be on this point, who will fight the claim of Edmonton to the very end of the chapter.

"Edmonton came down asking that the permanent capital be placed at Edmonton. That will not be granted. A provisional capital will be named for some point. It may be Edmonton. Had Calgary shown no interest and dispatched no deputations it is in doubt what would have been done. The delegation can safely take that much credit to itself.

"The new province of Alberta will come into being on July 1st, 1905. An election will be about the only work of the first government."

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 4 and 20, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres more or less.

ENTRY.—Entry may be made per district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, counter-signed in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with buildings for their accommodation, cultivate 20 acres of his homestead, and have besides 80 acres sub-sistence.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1880.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly-arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY.

Deputy Minister of the Interior.
N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

LARUE & PICARD

NOW I notice a decided improvement in the cultivation of tobacco in Cuba.

The soil is artificially fertilized and the plants regularly tended by experienced men to keep down the destructive caterpillar—and keep the plant nipped back so that only as many leaves are left on the plant as nature will allow it to properly mature—consequently the quality of the tobacco has so improved that when I buy the well matured and well cured leaves I obtain the choicest smoking material for the world produces.
